Dear Hiring Manager,

I am writing to express my interest in the Summer 2026 Internship position at JPMorgan Chase. With a strong educational background from The University of Texas at Dallas and prior internship experience at GM Financial, I am eager to bring my skills and dedication to this position.

Through my academic journey, I have learned various programming languages and technical skills, including Java, Python, SQL, JavaScript, and C++. Additionally, through my internship experience, I had the opportunity to gain hands-on experience as a software developer in a corporate environment. I had the privilege to work directly with CI/CD processes and engage with the dev-ops lifecycle. I worked primarily with C# and received exposure to powerful technologies like Microsoft Azure, Terraform, and JFrog Artifactory. Working in the finance industry, I have found a real passion in helping people reach their financial goals, and I would love to continue that journey at a reputable institution like JPMC.

At JPMorgan Chase, I know that I will have the opportunity to solve real-world challenges, while growing both personally and professionally. My strong work ethic and eagerness to learn make me prepared to take on the challenges of being part of a large and successful company like JPMC. I am thrilled about the opportunity to be a part of your mission and am prepared to discuss how my background, skills, and strengths can be of value to your team.

Thank you for considering my application. I am looking forward to the opportunity to further discuss how I can contribute to your team.

Sincerely,

Joshua Koshy
